

**4.3-10 Male Compression Connector for 1/2" Flexible cable | 123-1HM-C | 123e.com**  
Part Number: 123-1HM-C

4.3-10 Male compression connectors are the easiest connectors to install in the field. Simply strip the 1/2" flexible cable, push the connector onto the cable, and with the RIGID tool compress it into place. 123eFit compression connectors by 123eWireless are designed for LOW PIM applications of <-160 (2\*43dBm)

**CROSS REFERENCE**

|                |                          |
|----------------|--------------------------|
| Alternative To | HL4RP-50A, 43M-LCF12-D01 |
|----------------|--------------------------|

**PHYSICAL SPECIFICATIONS**

|             |             |
